Avoid the enemies A short video will be coming soon, stay tuned. No prison for me, you idiot, there's no escape for me... The game is called Death Or Deliverance and the worlds theme, inspired by the poetry of William Carlos Williams: A fly skitters across the pane, And the spider gossips by, And the green blades of grass spring up in the sun Like a wreath. Dark Fear is a short horror game with a unique mechanic and a purely linear structure. Enter a world of doom. Dark Fear is a short, scary story written in the first person. It was meant to be the first part of an artistic and atmospheric horror cycle. The story unfolds by means of a puzzle mechanic and the player's own hands. The player should try to find the light source that is guiding them. Each light source illuminates a certain piece of the world. When all five light sources are illuminated, you will be able to see the story's end. By manipulating the environment and your actions, you can affect the flow of the game's story. It was written and designed to force the player to make decisions and to lean forward in their own body. It is not only about letting the player know their fate, but instead it's about letting them make their own choices and live with the consequences. The nightmare has begun. Welcome to an alternate reality. Where are you? A foreign dreamscape. A forgotten world. A hostile and hostile place where the walls try to keep you away. A world of darkness. Doom!
