**Diner Dash:® Hometown Hero™ Crack Free PC/Windows [2022]**

Diner Dash: Hometown Hero™ offers a deeper and heartier experience that puts a whole new spin on the classic Diner Dash™ formula. It starts with our new Diner Dash:® Hometown Hero™ Story Mode, which can now be played alone or with a friend. Over the course of six stages,

---

Flo and her Grandma Florence will play through a range of new restaurant locations, including an old-fashioned diner and a vegan tofu restaurant. The challenges take place over various days and Flo and Florence must work hard to meet customer expectations and earn the best reviews. We've also rethought our game play with a few fun new twists: The customer service aspect of the game is improved, new "wheel of acceptance" limitations will limit Flo's guest count, and we've created new "diets" and "cravings" to affect Flo's performance in the restaurant. Key Features: Story Mode: Part of our Story Mode, which offers 6 different locations, each with their own restaurant and unique challenges. Try to meet the expectations of Flo's customers and make them happy before you finish the stage! Customer Service: This is where you'll find the complete service menu! Management objectives and various tasks will offer you a chance to practice service skills and receive feedback. The new Customer Wheel of Acceptance limits how many customers you can bring in at once and introduces "diets" and "cravings" to affect Flo's performance. Time Management: Flurries of tourists have brought a new sense of urgency to Flo's days as a waitress. The new Clock will keep track of Flo's time, and you'll need to make sure you don't get to work too late. Customization: Customize Flo by changing her outfit, hair, special abilities, her avatar, and more. Wonderful World: Enjoy five beautiful and distinct cities, each with its own unique look and charm. In each city, you'll get to enjoy all five restaurants at the same time. Matchmaking: Join Flo's friends in a fun game of up to five players to earn double tokens. ### **Diner Dash:® Hometown Hero™ Crack Full Version**

What's New in This Version:- New Snowman theme for free- New Customer rewards for FREE!- Improved animation- Bug fixes and stability improvements Customer Reviews 5.0 out of 5 starsGreat game with huge improvements! by Mr.Stevie98 on April 23, 2015 This game is so much more fun now. The main reason I gave it 4.5 stars was

---

because it was pretty buggy and got stuck on a lot. So after some tweaking and fixing a few bugs I have a much better game. The graphics are a lot more appealing, the customer graphics have been improved and the dialogue is quite hilarious! They have even added new customers like the "mighty Hunter" and "Burger Chef". The update added the new 2 player mode which is great because when you play with a friend it can be much more fun! Overall I would definitely recommend this game for anyone looking for something fun to play and would give 5 stars if it had a real snow theme and more tables! I would give it 5 stars if it was on sale! by MissKamilaLove on December 19, 2014 First, let me say that I LOVE the game. It is my absolute favorite game, and I have been playing it for three years. But it's not on sale for \$3.99! What a ripoff! The game is worth \$7.99. I haven't played this game in three weeks. I have played it so much, and it's so fun, but I am really upset! What a ripoff! I would like to see more cards added to the game! by MsRy on January 10, 2013 You can definitely do more with this game if you add more cards. Right now, I am finding it hard to buy a small promotion at this price point, as I can only afford to buy a few of the cards I see in the store. If you added more cards to this game, this would definitely help the appeal of the game. Fun and addictive!! by Superstarstar on January 26, 2012 This game is one of my favorite. I love the game and the fun aspect that it has to it. You have to manage your diner and attract customers by placing appealing cards and placing flowers and also having beautiful waitresses to serve your diners. It's very addicting and fun. ### **What's new:**

**Diner Dash:® Hometown Hero™ is a video game based on the classic diner game called Diner Dash, developed by Babycastles and published by Gameloft. It is the first game released by Gameloft in the series Diner Dash: Shadow Capers®, which is an expansion of the original Diner Dash game that adds characters, mini-games, and restaurants. Ninja Dash: Hometown Hero and Metal Slug Frenzy are the two modes for single player. Hometown Hero is a running game mode where players dash from one town to another unlocking**

restaurants. Metal Slug Frenzy is like Diner Dash, but in Snake and Billy's Arsenal. You start out with a tank and a sniper rifle but lose the tank on the way to a town. Players can unlock characters, vehicles, weapons and businesses. Bible Blitz: Hometown Hero The Hometown Hero mode is similar to the Diner Dash series, where players do not have to build a restaurant. Players simply travel from one location to another by clicking and running between each location on a map. Certain types of locations will challenge players, but failing to complete one will not affect game progress. Players unlock restaurants by completing challenges and clearing locations, earning coins, and purchasing items with in-game currency. The in-game currency is acquired by completing challenges, visiting locations, and purchasing items. The main goal of the Hometown Hero mode is to find all the places while collecting the highest amount of coins in each city. Unlocked characters can provide a player with additional help. Players have up to 4 characters to choose from. There are also unlockable buildings and weapons. Players can acquire them by unlocking locations. Frenzy mode Metal Slug Frenzy is a more intense version of Diner Dash, where players start out with a tank and sniper rifle, and at some point loses the tank on the way to a town. Players have to complete the five different missions of Diner Dash (Start, Up and Down, Battle to the Finish, Disc, Return to Diner), which are completed by clicking and running while jumping. After each level players collect the amount of coins in the path before finishing the challenge which awards the player with a weapon or an upgrade. It also introduces four new characters and some new locations, like the munitions factory. Being the quicker way of the two, the frenzy mode mode is not as condensed and organized as the standard Diner Dash
