Muscat: Members of the North Oman Environmental Protection Agency (Nepa) arrested a fishing net that had been set in the waters of the Sultanate and had trapped an adult croc, weighing around 125 kg and measuring 6 metres long, on Tuesday. In a statement to Gulf News on Wednesday, Nepa confirmed that the arrested croc had been freed and examined by its medical teams. The statement explained that after the post mortem, the results were announced to the public on Thursday. It added that the croc, discovered by a fisherman, had been captured and detained and later examined by Nepa officials. Nepa explained that the case had been reported by a group of concerned citizens who had received a call on Tuesday night about a massive number of fishing nets spread across a lake in its vicinity. The group saw what appeared to be a croc trapped in a fisherman's net and contacted Nepa's

According to the statement, the teams took the croc into custody and later handed the croc over to experts, who determined that the body was of a long-aged crocodile. The statement said that the officials decided to keep the croc on the grounds that it was found in an area with large numbers of people. Nepa also clarified that there were no cases of crocodiles in Muscat and its environs in the last few years. The statement added that the croc had been kept in a holding area and was being examined by the relevant specialists. Nepa added that it would not be allowed to remove the croc, even though it has weighed nearly 125kg, "unless the release is allowed by the Muscat Divisional Court". The statement also added that the law prohibits the release of any animals in the environment that live in the lakes of the Sultanate and that has been included in the Environmental Protection Law. In addition, it added that the law also prohibits the release of any animals into the environment that can endanger

Chaosium's Great Hollow: The setting The original Chaosium game, originally called Dungeons & Dragons, was written by Chaosium founder Gary Gygax. It was first published in the paperback game Advanced Dungeons & Dragons in 1976 and eventually provided the basis for several other fantasy role-playing games, including Eberron the Forgotten Realms, Dragonlance, Dark Sun, and Ravenloft. Chaosium's Great Hollow is a one-room dungeon adventure, and its only character may be a human who may be either male or female. There is only one character in the game. However, the player characters need not be based on actual people. In either case, the player will be able to provide their own name and appearance when playing the game. All PCs must take either the "Chaos" or "Chaosium" name; only one name may be used. The monster set is based on Flint's Monster Guide, 1st edition, published by Chaosium in 1977.
