The comments came in a court filing Wednesday, although it is unclear when the court will make a ruling on the matter. Why it matters: Manafort's sentence could come as soon as next week, according to sources briefed on the process. The case comes as the president continues to struggle with the backlash over his first two months in office, and how he conducted his campaign.Running Mac OS X Lion 10.7.3 on my 2009 MacBook Pro (16GB memory, Nvidia GeForce 9600M GT video card) can lead to high GPU temperatures and GPU lock-ups that result in corrupted data and system crashes. I was trying to use my laptop as a desktop replacement for a while, but I had to give up that use because of the performance issues. If you are experiencing similar problems you
