Hello my name is Peter Ewaskiw and I am a student at INSPIREC (a program that helps young people become interested in science, technology, engineering, and math careers) The reason why I am here is to have my voice be heard so that others can also hear it. IM NOT HERE BECAUSE I AM CRAZY! I stand on the shoulders of giants. So lets give them all the credit they have by telling people how their discoveries have changed the world. Now go out there and be a great credit to everything that's came before you! Don't try to be too hard on yourself. Instead, be open minded and learn from the true geniuses out there. These are only a few of the people that have changed our lives forever: 1. But when he reached his feet he was found to be nothing but a stick of wood." -From "The Inventor's Puzzle" by Inventor's Puzzle Inventor's Puzzle is a game on mobile platforms which involves using the name of the inventor of an item and putting it in the correct place.
